Focus of the conference

SPOLUPRÁCA-SPOLUPRÁCE-WSPÓŁPRACA 2025 conference is a continuation of the annually organized scientific event in the Central European region. The conference offers an international platform for the exchange of experience and information between Slovak, Czech and Polish foundries, science and research and the pedagogical community in the field of foundry metallurgy and technology, molding compounds, heat treatment, environmental protection, etc.

The main goal and focus of the conference is to provide a summary overview of the current state and future, trends in the following areas:

- influencing the crystallization of foundry alloys,
- metallurgy of ferrous and non-ferrous materials,
- foundry technology,
- unconventional foundry technologies,
- molding materials,
- heat treatment,
- the use of simulation programs in the foundry,
- production of prototypes for rapid model production, additive technologies,
- alloy filtration,
- metallographic analysis of foundry alloys,
- unconventional evaluations of foundry alloys, repair of castings, etc.,
- welding theory and technology.

Conference languages:

Slovak , Polish , Czech , English (without interpretation).

Venue

The conference will be held in the well-known cozy spa town **of Rajecké Teplice.**

The spa town of Rajecké Teplice is located in the northern part of the Rajecká basin, approximately 10 km south of Žilina. The natural thermal spas in this city are among the most famous and attractive in Slovakia.
